**FESTO**

## There's never a wait in your own backyard.

Festo assemblies may be worth the wait — but why wait? Our GCG Assembly Program saves you time and money by providing you with the configurations you need. Through this partnership, we are ensuring your valve manifold, core air-prep, and other popular assemblies are delivered quickly and cost-effectively.

*Various products available to ship within 7-10 days!*

### Popular Festo assemblies available immediately:

#### Valve manifold VTUG with multi-pin plug or fieldbus connection

Compact and universal, with high flow rates. Optimized valve manifold variants for installation in control cabinets, with manifold rail for increased corrosion protection.

#### Core Air Prep MS Unit

With the preconfigured MS series, Festo provides a complete system for compressed air preparation – for both standard applications and application-specific solutions with the highest quality requirements.

## We know that every minute counts for your factory's bottom line.

Our support program offers several benefits including:
