SIEMENS

The Nation's Leading Siemens Distributor

Our scale is unmatched. GCG has united the top Siemens distributors into one organization, creating the largest and most capable Siemens distributor in North America. With more Siemens accolades and awards—including the prestigious Siemens Bronze Eagle—than any other distributor, GCG is recognized for its proven ability to deliver Siemens solutions and support our customers with unrivaled expertise.

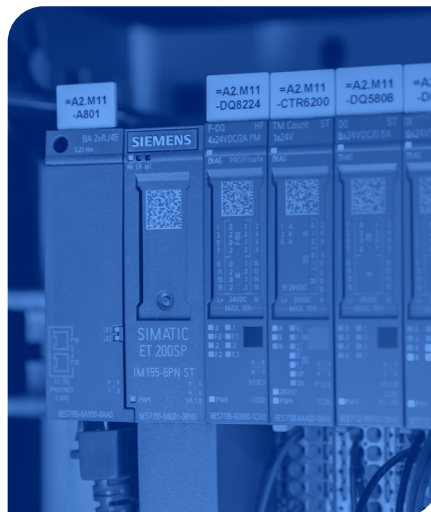

Why GCG is the Right Siemens Choice

When it comes to Siemens automation, no one delivers more value than GCG.

- **Engineering Resources** – 30+ engineers with over 500 years of combined automation experience, including the largest number of Siemens-certified experts in the country.
- **Inventory** – Over \$5 million in stock and 2,400+ SKUs across four strategically located Midwest distribution centers.
- **Pricing** – National scale and volume purchasing power ensure customers receive optimal pricing levels.
- **Customer Service** – Backed by 30+ years of proven Siemens order fulfillment expertise.
- **Training** – GCG-led local Siemens training, available on a scheduled basis, on demand - at one of our training facilities or onsite.

With unmatched expertise, resources, and support, GCG is your **strongest partner for Siemens solutions.**

When it comes to your Siemens partner, there is only one clear choice: **GCG**

TIA Portal

Regardless of what you need to engineer innovative machines, you'll find it in Totally Integrated Automation (TIA) Portal. It gives you unrestricted access to the complete range of digitalized automation services, from digital planning to integrated engineering and transparent operation. With TIA Portal, you gain valuable competitive advantages!

- End-to-End Digital Automation
- Built-in diagnostics, topology mapping, tag synchronization across all devices with Safety Integrated fail-safe programming
- Holistic engineering platform for all of your automation needs
- Faster projects. Smarter engineering. One environment.

Automation & Interface Solutions

Next Level Performance: Basic to Advanced Controllers

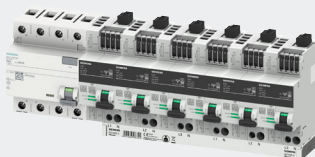

Power Distribution Solutions

Rugged Power Distribution: Breakers, busbar systems, and modular switchgear deliver safe, space-saving, and energy-efficient solutions

Circuit Protection & Controls Solutions

Powering Automation at its core: Superior power design solutions with modular architecture and streamlined accessories – basic to advanced controllers

Drives & Motion Control Solutions

Scalable Motion Control: designed for flexibility, accuracy, and performance
